Disclaimer

The Bush Telegraph is published by the Shire of Sandstone as a public service for the community.

The opinions expressed have been published in good faith on the request of the person requesting publication, and are not those of the Shire of Sandstone.

All articles, comments, advice and other material contained in this publication are by way of general comment or advice only and are not intended, nor do they purport to be correct advice on any particular matter or subject referred to.

No person should act on the basis of any matter, comment or advice contained in this publication without first considering, and if necessary, taking appropriate professional advice upon the applicability to their particular circumstances. Accordingly, no responsibility is accepted or taken by the Shire of Sandstone, or the authors and editors of the Bush Telegraph, for any damage or loss suffered by any party acting in reliance on any matter, comment or advice contained herein.

Contributions

Please contact the Shire of Sandstone Administration Office if you wish to contribute to the Bush Telegraph and take part in a chance to win a $50.00 cash prize.

You can email your contributions to cso@sandstone.wa.gov.au or drop it into the Shire Administration Building.

If you wish to stay anonymous, you can put your contribution in an envelope, write Bush Telegraph on the front and drop it in the red mailbox at the Shire Administration building.

Cut-off time for all contributions is the 25th of every month which will allow our staff time to include your contribution. Contributions made after the 25th will be included in the next edition.

Feedback Tell us what you like, what you don't like, what could be improved and what you'd like to see.

Cut out and drop your feedback form in to the Shire office at Reception or email Tegan Brown at cso@sandstone.wa.gov.au

From the Desk of the CEO

TOWN FUEL SUPPLIES

The town fuel bowsers failed for a few hours on Saturday 24th October. I believe this was due to Horizon Power doing upgrade work around the town at various locations.

A document has been uploaded to the Shire website cautioning travellers of the do's and don'ts of travelling in remote Western Australia.

This won't be relevant for everyone, but we are trying to make travellers, especially occasional travellers, aware that the outback doesn't have services the same as a city or a big town.

Be prepared is the message.

CHRISTMAS SCHEDULES

The Shire office will close at 4:00 PM on Friday 18th of December and reopen on Monday 4th January 2027.

Mail services will be provided during that time, and we will advise the community of the Post Office opening times.

The road crew will be on holiday at approximately the same time as the administration staff.

TIDY TOWNS INSPECTION

The street banners have arrived and will likely be erected from Monday 2nd of November.

Below is a glimpse of the banners, which are quite spectacular. Unfortunately, we didn't have them here in time for the Tidy Towns inspection.

However, we have since learned that Sandstone is a finalist in the General Appearance Category for the 2026 Awards, **Congratulations Sandstone!**

SHIRE NEWS

ADMINISTRATIVE

Administrative issues (bureaucracy) continue to plague Local Government with ever-increasing compliance and reporting functions.

In the new year, we must upgrade our administrative software as the current applications are failing and won't have programming corrections.

We are purchasing a newer system from the same service provider, but it's much more advanced than our existing package. It will cost more than what we are currently using, but far less than switching to a completely new system, as some other local governments have chosen.

Despite widespread opposition, the State Government is introducing an all-in election process for Local Governments. This will happen at the 2031 Local Government elections, when all Council seats will be declared vacant (in Sandstone, that's 6 seats), and voters will choose 6 candidates.

Of course, members who must step down can reapply for election, but the concern is that a Local Government could elect 6 entirely new people with little or no local government knowledge.

The State Government is also legislating to make "voluntary" boundary shifts and amalgamations easier. We have yet to see the full package on this issue, but I believe it will remove communities' option to petition against boundary changes or amalgamations.

VALUER GENERAL PROPERTY VALUATIONS

The Valuer General's office carries out property valuations in smaller communities every 5 years. These have been completed in Sandstone. These valuations estimate the rental value of properties, and these rental values determine the GRV rate in dollars that local governments use to set property rates on all non-rural properties. GRV is your property's Gross Rental Value.

We have been unofficially advised that rental values in most housing in Western Australia will be almost double those in previous years due to rising housing costs and higher rents.

This doesn't mean your rates will double – it means local Councils will reconsider the rate-in-the-dollar they attach to various properties.

Peter Money

SHIRE NEWS

The Shire reached out to the Minister for Water regarding concerns received from the public on the cost of connecting water services to properties in Sandstone. We have received the below letter with information from Water Corporation.

OFFICIAL

629 Newcastle Street
Leederville WA 6007

PO Box 100
Leederville 6902

T (08) 9420 2420

WATER CORPORATION

Our Ref: 18387730

28 October 2026

Mr Peter A. Money
Chief Executive Officer
Shire of Sandstone
23 Hack Street
SANDSTONE WA 6639
Email: ceo@sandstone.wa.gov.au

Dear Mr Money

I refer to the former Minister for Water's response to your letter of 4 March 2026 about the cost of connecting a residential property to water supply in Sandstone.

Water Corporation has now considered the matter further. We recognise the Shire's concern that connection costs can be significant when compared with Sandstone property values.

We have confirmed that where a residential vacant lot is already attracting water service charges, the owner is not required to pay a Standard Infrastructure Contribution (SIC) when connecting a home to the water supply. At current rates, this reduces the upfront cost by $2,756.

This approach reflects Sandstone's historical charging arrangements and recognises circumstances where a residential vacant lot is already contributing through annual water service charges prior to connection.

Separate charges for installing and activating the water service will continue to apply. These charges recover the cost of connecting the individual property to the water network.

As regional connections are individually quoted, landowners can contact Water Corporation for an estimate before submitting a building or water service application.

Further information about water service applications and charges, including how to request an estimate, is available at watercorporation.com.au/developing-and-building/fees-and-charges/water-supply-service-fees.

Should you or your staff wish to discuss this matter further, Rick Harrison, Manager – Building Services, would be pleased to assist and can be contacted on 9420 2076 or at Rick.Harrison@watercorporation.com.au.

Thank you for raising this matter on behalf of the Sandstone community.

Yours sincerely

Dehlia Goundrey
HEAD OF DEVELOPMENT SERVICES

BARLANGI ROCK
THE MISSING CRATER

It may seem strange but a meteorite made Barlangi Rock. No matter how hard you look you won't see the crater but there's evidence of the impact all around you.

Between 1.2 and 2.6 billion years ago, a meteorite crashed not too far from here. The meteorite's impact violently altered the landscape and smashed a massive hole into the ground known as the Yarrabubba Crater or Impact Structure, thought to have measured between 30 and 70 kilometres across.

A huge amount of heat and energy was released at the point of impact and melted the rock. This molten material then solidified and, following millions of years of weathering and erosion, created the mound of granite that you see today.

The rock that forms Barlangi Hill is the Barlangi Granophyre, a term used to describe a finegrained rock containing small, visible crystals of quartz and alkali feldspar – this is the rock that formed as a result of melting following the meteorite impact.

Other pieces of evidence that point to Barlangi Hill's violent beginnings include shatter cones, xenocrysts and xenoliths.

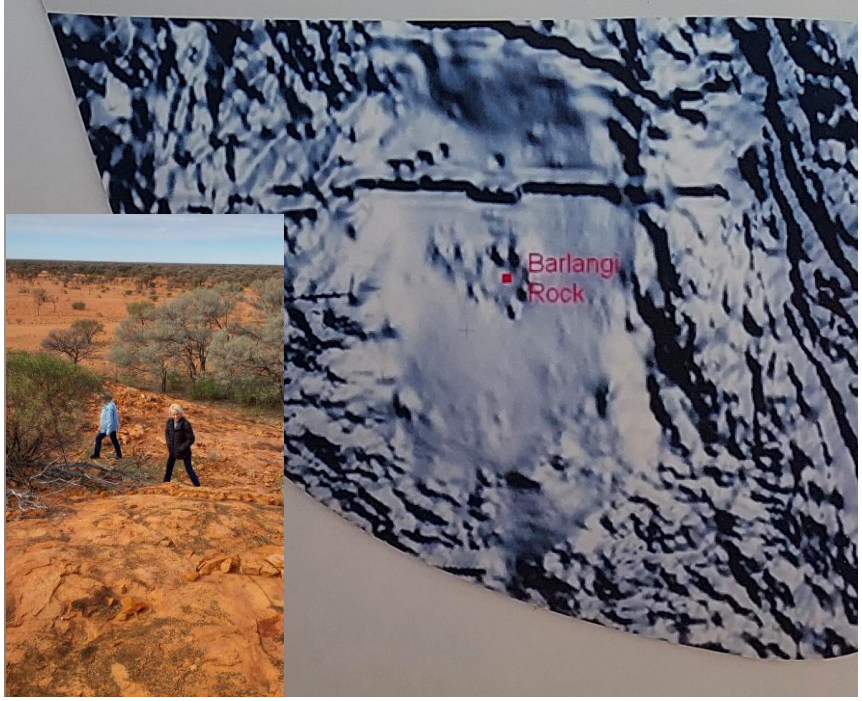
Shatter cones ("conical impressions") appear in rocks that have been subjected to high pressure shocks. Xenoliths ("foreign rock") are rock fragments that are broken off from the surrounding rock and were enveloped by the molten material generated by the impact.

Xenocrysts ("foreign crystal") are similar but are crystals like quartz and feldspar instead of rock. You can see shatter cones, xenocrysts and xenoliths on and around Barlangi Rock.

Please do not collect or remove any shatter cones you may find.

Australia has 27 confirmed meteorite impact structures (or "astroblemes"). The Woodleigh Impact Structure in Western Australia ranges in size from 60 to 120 km making it the largest or second largest in the country. South Australia's Acraman Impact Structure has a confirmed diameter of 90 km.

Yarrabubba aeromagnetic TMI image



Driving along the gravel road from Sandstone to Meekatharra you will pass an unassuming but special place called Barlangi Rock.

The Rock is the result of a meteorite impact many, many years ago!

If passing by, make sure to stop for a look and walk around this ancient structure.

Also look out for nearby Bower Bird Bowers who collect glass, rocks and odd bits and pieces.

Maintaining Smoke Alarms

Once a month

Press the test button on your smoke alarm for up to 10 seconds until you hear the alarm sound. If the alarm does not sound, try putting in a different battery or replace the smoke alarm.

Every year

Clean your smoke alarms

Use a vacuum cleaner with a soft brush to gently clean dust and dirt from your smoke alarm.

Cleaning your smoke alarm helps stop false alarms and makes sure smoke can reach the sensor.

Replace the battery every year, if needed

All smoke alarms have batteries, even smoke alarms connected to mains power.

Replace the battery in smoke alarms that use a 9-volt alkaline battery. Smoke alarms with a non-removable lithium battery will have a warning label saying not to replace the battery.

If you're unsure about the battery type, ask the smoke alarm manufacturer.

Every 10 years

Replace all smoke alarms every 10 years

Smoke alarms do not last forever. Their sensitivity decreases over time, making them unreliable. Replace them every 10 years.

Test your alarms once a month.

Clean your smoke alarms every year.

Replace the battery every year, if needed.

Replace all smoke alarms every 10 years.

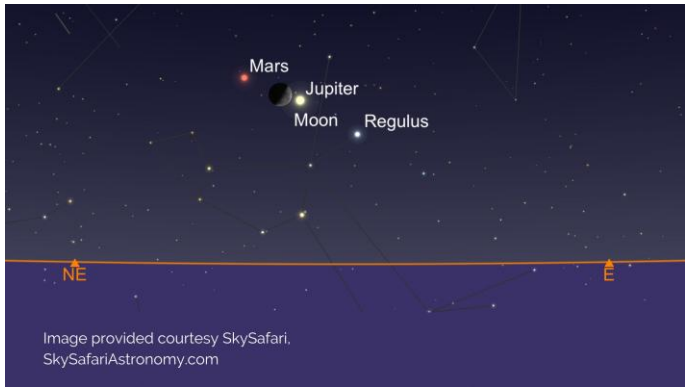
November Stargazing

For more information on each event visit the website: www.astrotourismwa.com.au

Jupiter is rising in the early mornings. For the early birds on 3rd November, there's a great opportunity to see bright Jupiter sitting alongside the Moon. Mars is on the opposite side of the Moon and they are all appearing alongside the constellation, Leo. You'll be able to see Regulus, the bright star of Leo, that will appear to the right and below the Moon.
See if you can identify other stars in the constellation by using a stargazing app on your smart phone. Leo the lion appears upside down to us in the southern hemisphere.

If you're using a telescope to view Jupiter, it's a Good idea to wait until it is higher above the horizon, so you get a clearer image through the eyepiece. Jupiter will be at its best viewing in coming weeks when it is closest to Earth for the year and is at opposition on 11th February 2027.

Use this image as a guide.
Astronomical images provided by SkySafari, a Simulation Curriculum Company, All rights reserved www.simulationcurriculum.com.



When and where to look:
From 3am, 3rd November. Look to the east.

Scorpius, more commonly referred to as Scorpio, is a large constellation that actually looks like its namesake! Sometimes it's quite difficult to make out the shape of constellations, but you should have some success with Scorpius!
It is visible all through spring during the early evenings. It lies overhead at around 8pm and is a lovely, large constellation.
See if you can find the curve of Scorpio's body and the sting in its tail stretching up to the centre of the sky!

When and where to look:
After 8pm during spring, Scorpio is directly overhead. Later in the evening, Scorpio sets in the west.

Something Interesting:
See how many stars you can count in the constellation of Scorpio.
Try this when you're in different places too. You'll soon see how dark night skies help bring out the stars!

NOTICE
Sandstone Nursing Post

My apologies to people trying to reach my land line for booking appointments.
The landline Telstra repeating tower is being shut down by Telstra in November and they are transferring us to a Starlink service.
Because the solar battery set up at the Mark Tower is old and struggling, we have had intermittent/no land line since September.
There wasn't much point replacing the batteries at vast expense when they were shutting down the towers.

We should be back on the land line 9963 5831 on the 13th November.

Kind Regards,
Lana Lefroy

GRAND FINAL

What a game!

A huge thank you to Tania and Mark Kevill for hosting the 2026 Footy Grand Final Day!
The delicious food boxes, decoration, the tips, the footy spirit...
It was certainly one to remember.

Bingo

It was a fabulous turnout for Bingo in October with around 30 people joining in. The speed round prize was $130 and for the raffle $185.

If you haven't been before why not give it a go.
Never know your luck until you try.

Congratulations to all the winners!

Hosted by Tania Kevill

CONGRATULATIONS SANDSTONE!

Sandstone has once again been named a finalist in the Tidy Towns Sustainable Communities Awards!

Keep Australia Beautiful WA's Tidy Towns Sustainable Communities Awards recognise regional and remote communities of all sizes.

It is an opportunity to celebrate community achievements across ten categories and show how we are protecting and enhancing our environment. By working together, we are building a sustainable community and making it an amazing place to live and visit.

The Awards Day will be held on the 27th November

Sandstone is a finalist in the **General Appearance** category. This category recognises improvements to a community's general appearance, including town approaches, public spaces, parks, buildings and footpaths.

You can read about last years finalists and winners here: https://www.wa.gov.au/system/files/2025-11/tidy_towns_sustainable_communities_awards_2025_snapshots.pdf

Tidy Towns Sustainable Communities 2026 AWARDS
Celebrating regional and remote community action.

Northfields (WA) Pty Ltd

WHO WE ARE

Northfields WA is a Family owned Company, specialising in remote area Concrete Supply and Installation, Civil Construction and Maintenance Works.

Northfields WA have been operating from our Base in the Central Goldfields Area since 1995 and our Core Leadership Team has over 100 years combined knowledge and industry experience.

Our extensive understanding of the conditions Remote Western Australia brings and our second to none Quality Standards, makes Northfields WA the natural choice for all your Concreting, Civil Construction and Maintenance needs.

Supplying a Concrete Future

Customer Focused - Safety First - Quality Always

WHAT WE DO

CONCRETE BATCHING TRUCKS AND SUPPLY

C60 Volumetric Batch Trucks are ideal for remote locations. Pre-programmed concrete mix designs ensure the proper strength and durability of your concrete, for every pour.

Sandstone has collaborated with StoryTowns to produce an audio town tour showcasing seven sites of interest.

The app is free to download and listen ! There are some paid audio guides further afield but all Sandstone and most of our nearby towns have completely free access so everyone can enjoy.

Go on, give it a listen!

DOWNLOAD APP

Told by locals

Whether you're driving through scenic routes, strolling down bustling city streets, or using public transport, let Storytowns audio guides narrate the sites and towns around you. Storytowns collaborates with communities to craft immersive audio guides, offering authentic travel tales from the heart of each neighborhood. Simply download our app and explore the world with Storytowns.

HOME MADE CHOCOLATE SYRUP RECIPE

Ingredients

- ¾ CUP COCOA
- ½ CUP SUGAR or TO TASTE
  (I used raw but any can be used or swapped with maple syrup or honey)
- ¾ CUP OF WATER
- ¼ TEASPOON OF SALT
- 2 TEASPOONS VANILLA ESSENCE.

Method

Mix cocoa, sugar and water together to until smooth.

Heat on stove top until it comes to a boil, the mix must be stirred at all times to stop it from sticking.

Once boiling reduce heat, add salt and simmer for 30 seconds or until it reaches the desired consistency you like.
Remove from stove and add the vanilla.
Let it cool then pour into a glass jar or bottle.
It will thicken a little more as it cools.

Keep in the fridge.
Use as a sauce over ice-cream, hot chocolate, iced chocolate etc.

Home Made Vannilla Essence

4 – 8 Whole Vanilla beans per 240ml of Alcohol (Vodka, Rum, Bourbon)
Alcohol must be 35 – 40% proof.

Prep the beans by putting a slit in each bean to expose inner seeds, put the beans into a clean glass jar/bottle and cover with the alcohol.
Seal and wait for 6 months (12 months will yield better flavour). Shake the jar/bottle at least once a week.

Enjoy your vanilla essence without all the additives!

By Tania Kevill

Sandstone Community Craft Group

Hi Fellow Crafters!

Another season of crafting has come to a close.
I would like to take this opportunity to thank you all for your company, friendship, and laughter.

This year, a number of you took time to contribute to the making of blankets for those in palliative care, either by crocheting, knitting, or joining squares. Thank you for your help.

A big thank you, fellow crafters, for the kind donations of wool, material, cottons, and much more. We are so grateful.

Until next season and we meet again,
have a Merry Christmas and Happy New Year.
Stay safe and healthy.
Cheers
Karan

The Sandstone Craft Group meets
Tuesdays and Fridays (APRIL to OCTOBER)
9AM to 1PM
At the Community Hall on Hack Street

For further information,
please contact Karan Heath
0418 905 090.

SHIRE OF SANDSTONE
OASIS OF THE MURCHISON

St John

Make a difference for your community.
Become an ambulance *volunteer*.

Supporting your Sandstone community is one of the best ways to get to know it. Join a social, inclusive and committed team, and you'll be surprised by the friendships you'll make, which can be as rewarding as the good you're doing for your town.

- Full training provided in a friendly, supportive environment.
- No medical experience required - all you need to get started is a police check, a clean drivers license, and a can-do attitude.
- Not all callouts are emergencies - help with routine patient transport.
- Commit to shifts to suit your schedule - a minimum of 60 hrs. per annum.
- Uniforms and ambulance cover provided free of charge.

PUBLIC NOTICES

Lights out in your street?

Lights in all Sandstone streets (besides Oroya Street) are maintained by Horizon Power; to report a street light that isn't working contact Horizon Power direct and state the individual pole number.
This number can be found on the street light pole.

You can call them on **1800 264 914**
or;
Go to their website
www.horizonpower.com.au/faults-outages/report-a-faulty-streetlight/

Pastoralists and D.E.C. in Sandstone and surrounding Shires have an ongoing wild dog bait programme.

Baits are on the ground ALL year round and are fatal to dogs

Dogs are **NOT PERMITTED** on a pastoral lease unless permission has been given.

To avoid being penalised all dogs and cats must be kept in your yard **OR** on a leash at all times.

Please clean up after your dog!!!!!

All dogs must be registered.

If your dog is not registered or you are unsure, please contact the Shire office.

Dog registrations are due at the end of October each year.

Ordinary Meeting of Council

The next Ordinary Meeting of Council is
Wednesday 25th November 2026
from 1:00pm in Council Chambers

When prepared, the Agenda can be viewed online
at www.sandstone.wa.gov.au or at the Sandstone Library

SHIRE OF SANDSTONE
OASIS OF THE MURCHISON

Telehealth is Here!

Sandstone has received a computer for telehealth consults using the Avaya website (video conferencing system).

Community members will now be able to have face-to-face consults with their medical practitioners in a private room in the Sandstone Community Hall.

Appointment dates and times for the use of these facilities can be booked in with the Shire on 9963 5802

ROTARY CLUB

We are the very first Rotary Club that is based purely online in WA. This enables people living in remote/regional areas the option to still provide a service to their local community by joining Rotary E club of E.WA. It's a new and vital Rotary Experience.

We meet via online webinars and the use of Facebook, both open to the public and private sessions.

Name: E-WA Rotary
Facebook: www.facebook.com/ewarotary
Email: rotaryewa@gmail.com
Website: https://rotaryeclubwa.org.au/

We'd love to hear from you :)

TELSTRA PRIORITY ASSIST SERVICE
https://www.telstra.com.au/consumer-advice/customer-service/priority-assist

What's Priority Assistance?
Priority Assistance is a priority fault repair and connection service we offer customers who depend on a working home phone due to a life-threatening medical condition. If you or someone living with you may be at risk without access to a working home phone, you could be eligible for Priority Assistance.

If you're not a current Telstra account holder, you'll need to order a new home phone service to receive Priority Assistance.

Call us on 13 22 00 and say 'Priority Assistance' to place your order.

You're also eligible for Priority Assistance if you have other dependent medical conditions and live alone without support or in a remote location.

Sandstone Visitor Centre & Heritage Museum

Factsheet

CHOOSE HEALTHY SNACKS

The time between meals can be a danger zone in our efforts to eat healthy. Hunger, boredom or stress can draw us towards quick and unhealthy snacks.

Many snack choices are high in added sugar, saturated fat and salt, and contribute a lot more kilojoules than we think. For example, a café style muffin has 10 teaspoons of sugar and the same number of kilojoules as a small meal.

SNACK SMARTER

- **Have a drink of water first.** You may actually be thirsty!

- **Keep snacks like nuts, fruit, crackers and tuna handy.** This will make it easier to resist the temptation of the vending machine.

- **Instead of a muesli bar, opt for untoasted muesli and yoghurt.** Top with fruit for extra sweetness and colour.

- **Make better take-away choices.** When grabbing a snack on-the-run go for sushi, rice paper rolls, fruit or a wrap.

- **Craving something sugary?** Reach for fruit – it's naturally sweet and filling.

- **Feel like a muffin?** Grab some fruit bread with reduced-fat ricotta cheese and chopped up bananas or strawberries instead.

- **Fancy some potato chips?** Munch on plain popcorn instead.

- **Fancy a sausage roll?** Try a cheese, tomato and egg toastie.

Other healthy and convenient snack choices to grab when hunger strikes:

RESISTANCE BAND WORKOUT

SQUATS

Place the band slightly above your knees. Stand up straight and place your feet slightly wider than hip-width apart. Begin to push your hips back into a sitting position while bending at your knees to squat down as far as you comfortably can. Pause for 2-3 seconds and then slowly rise up and return to standing position.

KICKBACKS

Place the band right above your ankles. Stand up straight with feet shoulder-width apart. Start to shift your weight on your left leg and begin to lift your right leg behind you towards your back, keeping your right leg straight. Pause for 2-3 seconds before slowly returning to starting position and repeat on your left leg.

SEATED HIP ABDUCTORS

Place the band around your mid thighs. Sit up tall with your knees and feet together. Begin to slowly push your knees out to the side against the band, keeping your heels together. Pause for 2-3 seconds and slowly bring them back to the starting position.

BAND WALKS

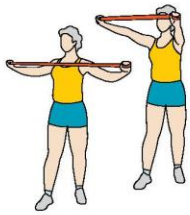
Place the band slightly above your knees. Begin in a squat position with your feet shoulder-width apart. Step out to the side with your right foot, so that you're travelling right. Repeat in the other direction.

BENT-OVER ROWS

Place the band around your wrists and turn your palms in to face each other. Stand with your feet shoulder-width apart, slightly bend your knees and bend forwards at your hips. Reach your arms down in front of you, create tension in the band by moving your hands slightly apart, slowly bend your elbows and bring your hands towards your chest. Pause for 2-3 seconds and then slowly straighten your arms out in front of you.

BAND PULL APARTS

Grab either side of the band with your hands. Stand with your feet shoulder-width apart and extend your arms out in front of you. Keep elbows slightly bent and slowly begin to pull the band outwards and pause for 2-3 seconds then slowly bring your hands back to the starting position.



TRICEP PUSHDOWNS

Put your right hand in the loop and place it on your left shoulder. Grab the bottom of the band with your left hand. Stand with feet shoulder-width apart. Keeping your elbow close to your body, begin to pull your left hand down towards your left hip. At the bottom your left arm will be straight, pause for 2-3 seconds and slowly return to the starting position. Repeat on other side.

KNEELING BICEP CURL

Start in a kneeling position, left knee on the mat and right foot on the mat. Place the band around the arch of your foot and grab the other side of the band with your right hand. Slightly bend forward at the hips and press your right elbow into your right thigh. Begin to curl your right hand up towards your right shoulder. Slowly return to the starting position. Repeat on other side.

LATERAL PULL-DOWNS

Place the band around your wrists with your palms forward. Sit or stand-up straight with your feet shoulder-width apart. Reach your arms above your head, keeping your shoulders back and squeezing your shoulder blades together. Create tension in the band by moving your hands slightly apart and slowly lower your arms down with the band in front of your face just below your chin and slowly raise your arms back up above your head.

Examine the band before use. Discard if you find any small nicks, tears or punctures that may cause the band to break. Do not overstretch the band - it could break. Store out of sunlight and away from heat.

Road Conditions

Road conditions are published on the Shire of Sandstone website.

The bitumen road between Mt Magnet and Leinster is maintained by Main Roads.

Our road condition report includes the following sections within the Sandstone Shire Boundary only:

Sandstone—Youanmi—Paynes Find (Via Gravel)
Youanmi—Mt/Magnet (Via Gravel)
Sandstone—Menzies (Via Gravel)
Sandstone—Meekatharra (Via Gravel)
Sandstone—Wiluna and Gidgee (via Gravel)
Sandstone—Yeelirrie (Via Gravel)
Heritage Trail (Gravel)

The website also has the contacts for nearby shires where you can check on the condition of connecting segments.
