### Summary

Council direction is sought for the preferred site preparation work required for the installation of one Shire Staff house and two on-site accommodations units for the Caravan Park.

### Attachments

### Background

Council has approved the construction of

1 - 3x 1 bedroom house on 10 Griffith Street Sandstone

1 - 2 x 1 Unit On-site accommodation for the Caravan Park on 17 Green Street Sandstone

1 – 2 x 1 Unit On-site Accommodation for the Caravan Park on 19 Green Street Sandstone

The calling of tenders for these buildings was instigated through the WALGA portal.

### Comment

WALGA has sought clarification on some requirements for these buildings, the most contentious being who will carry out the site works – the Shire or the building contractors.

The cost of carrying out of site works will be significant if the successful tenderer is required to bring machinery and operators to Sandstone to prepare the three sites for the buildings.

Alternatively, the Shire would need to provide its own machinery and some expertise to carry out the site works which would result in taking the necessary machines off road works projects.

### **Risk Implications**

The Financial Activity report is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer has implemented internal control measures such as regular Council and management reporting and a quarterly process to monitor financial performance against budget estimates. Materiality reporting thresholds have been established at half the adopted Council levels, which equate to \$10,000 for operating budget line items and \$10,000 for capital items, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud. The establishment of control measures through a series of efficient systems, policies, and procedures, which fall under the responsibility of the Chief Executive Officer as laid out in the **Local Government (Financial Management Regulations) 1996** regulation 5, seek to mitigate the possibility of this occurring. These controls are set in place to provide daily, weekly, and monthly checks to ensure that the integrity of the data provided is reasonably assured.
