Status Update September 2018

Background

It is important that the Council receives an update on the outcome of its resolutions on a regular basis.

Comment

The changes to the report this month are the removal of the Astro Tourism Towns project as the shire will not join at current membership fees and no reduction looks like being made available. Secondly the date for the erection of the fence at 19 Hack Street sharing the boundary with the Admin Office carpark is the end of September 2018.

10.1.2 Transfer of Management Part of Reserve 14178 – Caravan Park

Agenda Reference: CEO 09/18 – 02
Location/Address: Shire of Sandstone
Name of Applicant: Water Corporation
Disclosure of Interest: Nil
Date of Report: 30 August 2018
Author: Harry Hawkins Chief Executive Officer

Summary

The Water Corporation is seeking access to part of reserve 14178 which is the site of the Alice Atkinson Caravan Park to house the new water treatment plant. That part of the reserve used by the Water Corporation would be excised from reserve 14178 and a new reserve with a management order to the Water Corporation would be created for that portion.

Attachments

Map of reserve 14178 showing portion proposed to be used by the Water Corporation.

Background

For more than 10 years the shires in the Murchison region have been pushing the Water Corporation to improve the water quality of the various towns in the region. The current water supply in sandstone while safe for adults and older children to drink can't be given to children less than 6 months of age and most people in the region drink bottled water in preference.

The white scale from the current supply also damages tap fittings and leaves a hard to remove residue on shower recesses and baths etc. The water also leaves residue on vehicles washed with it. In recent years trials of different water treatment methods have been completed and the EDR or desalination process Electro Dialysis Reversal has been found to be the most effective and reliable. This system has already been installed in Yalgoo and has been working well.

Comment

After testing various water treatment options the Water Corporation has concluded that the EDR system is the most reliable to provide a good water supply to the towns in the Murchison. Contracts to install the system have been signed with Guidera O'Connor who will supply and install the plants in Mount Magnet, Cue, Sandstone and Meekatharra with the Sandstone plant forecast to be operational by mid 2020. As there is not sufficient power available from Horizon Power to run the plant the project will include the Water Corporation installing solar panels, batteries and a diesel generator while Sandstone will also receive 2 new 200kL storage tanks and a booster pump to improve storage and water pressure. Evaporation ponds will also be required to treat the residue from the desalination process.

The next step in the process is to acquire access to land to site the plant and the Water Corporation have requested a 500sqmtr portion of reserve 14178 on the corner of Irvine and Griffith Streets however there may be an issue with the new leach drain in the caravan park encroaching into the area marked on the attached map. Negotiations are continuing but the Water Corporation's preferred site is in the corner as marked on the map.

The leach drains end 24mtrs from the fence so a 480sqmtr portion would be available and Water Corporation Senior Project Manager Ian Bierman believes that would be sufficient for the plant.

10.1.3 Fencing of Lots 98 and 99 Payne Street
--

Agenda Reference:	CEO 07/18 – 03
Location/Address:	Shire of Sandstone
Name of Applicant:	Shire of Sandstone
Disclosure of Interest:	None
Date of Report:	31 August 2018
Author:	Harry Hawkins Chief Executive Officer

Summary

There is an issue with trucks parking on lots 98 and 99 Payne Street and disturbing neighbours when they leave in the early hours of the morning therefore it is proposed to fence these lots to stop trucks parking on them to alleviate this problem.

Attachments

Nil

Background

The shire had originally believed that lots 98 and 99 Payne Street Sandstone were unallocated Crown land as town site maps dated 2010 held in the shire administration office showed them as such and comments were that the shire had not purchased any land recently. Landgate

records accessed through the SLIP system has confirmed that in February 2011 these lots were transferred to the Shire of Sandstone.

Lots 98 and 99 Payne Street are vacant land owned by the Shire of Sandstone opposite the shire depot and in close proximity to the National Hotel. Truck drivers visiting and staying at the hotel often park on these vacant lots overnight and create a nuisance when they start their trucks to leave often as early as 5.00am.

It should also be noted that the land being used by these truck drivers and the houses either side of them are zoned Town Site Rural and the shire's Local Planning Scheme No.2 in making that zoning prohibits the parking of trucks on land in this area as that activity would be classified as a transport depot which requires Council approval and advertising for community comment before it could be approved in that zone.

Comment

A request has been received by the shire to fence lots 98 and 99 Payne Street to stop trucks parking on them and creating a noise nuisance when starting those trucks in the early hours of the morning. Previously old power poles have been placed across the front of these lots to prevent parking however they have been moved. A solid colour bond steel fence would be unable to be moved and could be added to the value of the lots if in the future they are put up for sale.

No application for permission to park on these freehold lots has been received at the shire administration office nor has any application to change the zoning been lodged.

To fence the front and rear of lots 98 and 99 Payne Street would be approximately 80 linear metres at a cost of approximately \$100 per metre for materials that is \$8,000 plus labour for a colour bond steel fence. A quote was sought from a local contractor however at the time of finalising this report it had not been received so no accurate cost is available.

10.1.4 Sandstone Community Postal Agency

Agenda Reference: CEO 09/18 – 04

Author: Harry Hawkins Chief Executive Officer

Summary

The current operator of the Sandstone Community Postal Agency Regina Gloede has advised Australia Post that when the contract expires at the end of October 2018 she will not be seeking to renew it. The suggestion has been made that the shire take on the role.

Attachments

Information Booklet for Prospective Community Postal Agents

Background

Regina Gloede has been operating the Sandstone Community Postal Agency for approximately 12 years and has advised both Australia Post and the shire that she does not intend renewing her contract. The shire has expressed an interest in taking on the agency so that residents of the town of Sandstone can continue to receive Australia Post services. The postal agency does more than just distribute mail to residents and is required to provide postage stamp sales and assessment, mail lodgement facilities, weigh and assess mail and empty the street mail box. Staff training will be required and this can be provided in Mount Magnet where the post office operator is a registered Australia Post trainer.

Comment

It has been suggested to Australia Post by the outgoing Community Postal Agent that the Shire of Sandstone would be interested in taking over the role when her contract expires at the end of October 2018 and shire staff are happy to take on the additional duties required. It is considered a priority to ensure that Sandstone maintains its mail delivery service.

There is no specific fit out of the premises required for it to operate as a Community Postal agency and shire staff have already discussed a layout for the postal service in the shire administration building with minimal impact on shire services.

The attached information booklet contains details on what is required of a Community Postal Agent in some detail including remuneration which is made up of

- a discount on postage and other approved products purchased from Australia Post;
- a fee for the provision of services, such as Counter Mail Delivery; and
- a Representational Allowance.

Arrangements will be made with the mail delivery service to ensure that staff are available to sort the mail when it arrives. The timing of this will be discussed in more detail when and if the shire is appointed to the role of Community Postal Agent. It may be possible to change delivery days to 3 midweek days and the drop off of mail to after 8.00am when the office is open but if the community don't like this approach then other arrangements can be made.

Comment

The purchasers of the house at 24 Payne Street Sandstone which is zoned Rural Townsite have applied for planning approval so that they may use the house as a holiday home which is different to a normal residential use. Local Planning Scheme No.2 under its zoning tables shows a Holiday Home as a D use which requires Council to exercise its discretion and give planning approval for this type of use.

The applicants Marc and Melony Halsall who reside in Margaret River will use the property when they visit Sandstone and have stated in their application that it may also be made available to guests who may be looking for a premise in town.

Marc Halsall is the shires consultant planner and on the attached application has listed the applicable clauses in the Local Planning Scheme and how each of those will be addressed. The application has also been sent to Health and Building consultant Dave Hadden for review and he has advised that all is in order.

The Bushfire Fire assessment level for the site is low therefore no fire requirements apply.

Construction

Road crew are starting work on the new year program on the bottom end of the Paynes Find Road. The camp at Youanmi is not suitable so the crew is travelling back to the depot each night which costs a lot of time as well as wear and tear on both the road and service truck. A mobile camp has been hired from Kalgoorlie and was delivered to the job site on Wednesday 19 September and the crew will occupy the camp and stop driving back and forth from Wednesday 26 September. Vickie Thomson from the visitor centre has taken on the cook/cleaner role as the visitor centre will close for the season in a few weeks and this will keep her employed.

Maintenance Grading

The shire maintenance grader is currently out on the Menzies Road and the new contract maintenance grader has commenced work at the bottom end of the Paynes Find Road and is working back towards Sandstone.

Flood Damage

Alltrack are finishing up on the Yeelirrie Road and will be moving out to the Meekatharra Road before heading back to Lake Barlee Road to finish up. All outstanding work is expected to be completed by February 2019.

Horticulture

Ongoing maintenance, mulching and planting although the gardener has been on leave for the last few weeks with Banjo doing the watering and any urgent tasks.

Plant Replacement

The new Pad Foot roller has arrived and is being used on the construction project on the Paynes Find Road however all other plant purchases have been put on hold until the new Works Supervisor commences. The outstanding items from the budget are a grader, a new service truck and a new water tanker while Danny had some good ideas and had commenced negotiations with dealers it is better to let the incoming supervisor contribute to the purchasing decisions.

Plant Maintenance

Repairs and maintenance on plant is up to date and the mechanic has returned to work but is currently out driving the water truck while Vic Taylor is on leave and the construction crew is short one truck driver. No plant maintenance issues have been reported.

Caravan Park

Maintenance as required and repairs as work requests come in are being completed. There are still some concerns about the water and the pumps constantly needing to be reset but this is being discussed with the pump supplier.

Building Maintenance

Minor maintenance as per work requests is being carried out by casual worker Paul Dixon. The sliding screen door at 18 Griffith Street was damaged recently in an apparent unsuccessful break in attempt and this has now been repaired.

Bioremediation Cell

Nothing at this stage.
