Summary

Council in resolution 04/19 resolved to purchase 2 units for the Alice Atkinson caravan Park however as the total cost exceeded \$150,000 we were required to call tenders. 7 tenders have been received and the evaluation results are below.

Attachments

Tenders received

Background

Council at its February 2019 meeting discussed a proposal to construct 2 x 2 bedroom self contained units at the Alice Atkinson Caravan Park however the price of the 2 units exceeded the \$150,000 tender threshold and tenders needed to be called. Tenders closed on the 15th April and 7 tenders were received by the submission deadline.

Comment

The 7 tenders received by the tender deadline have been assessed against the selection criteria in the tender documents and a summary is shown below.

Tenderer	Complies with tender requirements	PRICE Ex GST	Previous Experience	Brand reputation in WA
McNally Commercial	Yes	\$269,638	Yes	?
Fox Transportables	Yes	\$165,476	Yes	Good
Evoke Living Homes	Yes	\$207,736	Yes	?
TR Homes	Yes	\$242,313	Yes	Good
Thermal Comfort Homes	Yes	\$216,364	Yes	?
Modular WA	Yes	\$188,252	Yes	Good
Acero Construction	Yes	\$147,157	Yes	?

All tenderers complied with the tender specifications although some included an instantaneous hot water service rather than the storage system specified. All 7 had previous experience in providing transportable buildings to country areas in Western Australia while brand reputation was difficult to assess as some I had not heard of although they may have a reputation with other people more involved in the building industry. The lowest cost option came from Acero Construction at \$147,157 while Fox Transportables had the next lowest price of \$165,476 with the highest tender being \$269,638 from McNally Commercial.

10.1.3	Differential Rates – Objectives and Reasons 2019-2020
---------------	--

Agenda Reference: CEO 05/19 - 03
Location/Address: Shire of Sandstone
Name of Applicant: Shire of Sandstone
Disclosure of Interest: Nil
Date of Report: 07/05/2019
Author: Harry Hawkins, Chief Executive Officer

Summary

As the Shire of Sandstone charges differential rates that are more than twice the lowest differential rate imposed approval needs to be obtained from the Minister. One of the first steps in this process is for Council to adopt the Objectives and Reasons for the differential rates.

Attachments

Statement of Objectives and Reasons for Differential Rates in 2019-2020

Background

When setting the level of rates for ratepayers the Shire of Sandstone as part of the annual budget process takes into account the use of shire resources by various groups in the community and the amount required to fund those resources and other shire activities over the year.

The Shire currently has four rating categories:

- GRV Townsite (residential/commercial);
- GRV Mining/Transient Workforce Accommodation;
- UV Rural (pastoral);
- UV Mining (mining tenements).

Within these four categories, the Council's rating strategy has been to impose a different rate in the dollar for each of these four categories. In particular, the GRV Transient Workforce Accommodation rate in the dollar is higher than the GRV Townsite rate in the dollar and the UV Mining rate in the dollar is higher than the UV Pastoral rate in the dollar.

The local government cost index (LGCI) has increased by 1.4% over the past year so if we are to keep up with that an increase would be required. The shires Strategic Resource Plan incorporating the long term financial plan is prepared on the basis of a 2% increase in the LGCI plus an additional .5% for growth equalling an increase of 2.5% however with the LGCI at 1.4% an increase of 2% incorporating the 0.5% growth component across all categories is considered appropriate to meet the shires budget commitments.

The Shire, will once again, for 2019/20, have differential rates that are more than twice the lowest differential rate imposed across both GRV and UV.

Council must approve the publication of the objectives and reasons why it is proposing to adopt differential rates. Once approved the objectives and reasons are issued for public comment for a period of 21 days. Once any submissions received have been considered by Council, approval is then sought from the Minister for Local Government and Communities. Please note that the Council does not have to adopt the level of differential rates proposed as it can vary these subject to any comments received. If there are no comments received, then the CEO can make the submission directly to the Minister without further consideration by the Council.

Once ministerial approval has been granted, Council can then formally adopt the budget. As required by Section 6.2 of the Local Government Act, Council must adopt the budget by 31st August 2019.

Comment

In line with the Department of Local Government and Communities Rating Policy, the imposition of differential rates represents a conscious decision by Council to redistribute the rate burden in its district by imposing a higher impost on some ratepayers and a lower impost on others.

To this end, the objectives and reasons used by Council for doing so must consider the following principles:

Objectivity

On what basis are the differential rates imposed. Is it zoning, land use, vacant land, a combination of these or some other reason allowed? For the Shire of Sandstone it is a combination of these reasons.

Fairness and Equity

That is, what benefits or services are the higher rated group of ratepayers receiving in excess of other ratepayers that pay less?

As in the past, the rates and minimum payments proposed for the GRV Residential and Commercial areas are set at what are considered to reflect the amount of shire services used by this group.

As we know, the Shire has a broad pastoral and mining sector, and it is essential that it be maintained throughout difficult times. The rates and minimum payments proposed for pastoral land use areas are set based on the infrastructure and services used by this group of ratepayers as compared to those used by the mining sector.

Persons operating within all sectors have the right to use all of the services provided by the Shire. The Shire does not seek to restrict the use of its services by any sector, though it is considered appropriate that those using a greater amount of the shires resources, infrastructure and services contribute more to the Shire's revenue than others. Therefore, as the largest area of expenditure in the shires budget is transport (roads) and the mining sector with its many vehicle movements both heavy and light uses the shire roads more than others they should contribute more to the maintenance of those roads.

Updated Delegations Register

Background

Legislation requires local governments to review their Register of Delegations at least once every 12 months. The Shire of Sandstone last reviewed their register in May 2018.

The Delegations Register is a register which records the allocation by Council of its powers and authority downwards to the CEO and any Committee to achieve effective results in a timely manner. Legislation also prescribes that not all powers of Council are able to be delegated and this is taken into account in compiling the register.

Comment

There is a statutory requirement for Council to review its register and there has been one change made in this year's review. That change is as follows;

FI – D13 The limit for the purchase of fuel by the Admin Officer or the Mechanic was increased from \$20,000 to \$40,000 by resolution 105/18 at the December meeting of Council.

All other delegations are unchanged from the 2018 review however in the explanatory notes in the section on things that cannot be delegated to the CEO the dot point relating to the appointment of an auditor has been removed as all local governments are now audited by the Office of the Auditor General.

Summary

1. Paynes Find Sandstone Road:

This project has about 8kms completed and has been paused as the budgeted funding has been reached, now after the works being open to traffic for a few weeks it has had some minor issues at the end of the works area which will be rectified when the crew finishes the RRG works.

2. Regional Road Group Project

The Regional Road Group projects have commenced with last year's project being completed. The crew is now into this year's project, with the work for this year being commenced at SLK101.7 for a further 3kms this should take the crew till the end of May early June to complete.

3. Contract Maintenance Grader

This contract grader has not been working for the past couple of weeks due to breakdowns, but consideration needs to be given to the need for it to be stood down so the shire maintenance grader has work to do as all roads have been graded once and are in a reasonable condition. However with the shire maintenance grader driver on leave the contractor may be engaged on patch grading flood ways and creek crossings which have been damaged.

4. Crew Movements

The crew will after the completion of the RRG works will go to the Meekatharra Rd to complete some scouring on flood ways after the last rains, they will then complete installing guide posts and signage on the Paynes Find Rd and removing old grids if Council will allow this to happen.

5. Plant

Council has now taken position of the new 12M grader and will be out to work shortly when the maintenance grader operator gets back from annual leave.

There is also the construction crews truck that has now been ordered and will arrive in the coming months after the body builders have completed the body and other fitments requested.

6. Maintenance Grader

The new machine when the operator returns from leave will go onto the Wiluna Rd there is areas that need works from the Meekatharra Rd to the boundary.

7. Budget Considerations

I would ask council to consider what locations they would like to have included in the 2019/20 budget, the RRG location is Paynes Find Rd and if council would like to continue the second section of this Rd that was not been completed this year, and any other location for the R2R funding.

I would also ask council to consider any other project with in town to investigate, i.e.; footpaths around the town and kerbing in areas with water scouring problems, or any other resealing around town or the two roads that have the seals on them.
