Summary

Stage 1 of the Murchison Geo Tourism project has been completed and the shires involved with the help of the Midwest Development Commission (MWDC) are now planning stage 2

and have agreed to create a working group to develop the next steps and each local government is invited to have a representative on the working group.

Attachments

Background

The shires of Mt Magnet, Cue, Meekatharra, Yalgoo, Wiluna, Murchison and Sandstone with the help of the MWDC have in recent years been working on creating a Murchison Geo Park tourism precinct. Stage 1 was completed with funding from MWDC and contributions from each shire and an official launch is tentatively planned to take place in Mt Magnet on Friday 2nd October 2020.

Stage 1 consisted of site selection, creation of a drive trail, creation of and printing of brochures, creation of a basic website and a mobile phone app. A business case has been put together to assist in applying for funding for stage 2 which includes signage and upgrading access to some sites.

Comment

A business case has been created for the purposes of a funding application for stage 2 of the project and at a meeting held in Mt Magnet on the 3 July it was resolved that a working group is formed to develop and put forward ideas to the Murchison Executive Group (MEG) who will make decisions and run the project going forward. Each shire was invited to select a representative to sit on the working group. The representative does not necessarily need to be a council or staff member but can also be a community member interested in tourism.

Council is asked to appoint the representative from Sandstone in order that they, as an official representative of the shire can be paid travel and other expenses to attend meetings.

Summary

As a part of the Federal Government's COVID-19 recovery assistance the Local Roads and Community Infrastructure Program was announced. The Shire of Sandstone was offered a grant of \$321,792. The offer has been accepted by the CEO and Council is asked to endorse that acceptance and approve nominated projects.

Attachments

Letter of Offer

Background

The Federal Government as a part of an initiative to assist a community led recovery from the effects of the shutdown of local economies due to the COVID-19 pandemic has announced the Local Roads and Community Infrastructure Program. It is expected that local governments across Australia will use this grant money to support local businesses to provide employment in local communities.

Comment

The Commonwealth Local Roads and Community Infrastructure Program provides grant funding for projects that will commence from 1 July 2020 and end on the 31 December 2021 with each local government's funding based on the Roads to Recovery model. The grant funds must be spent on community buildings or local road construction activities.

The CEO has completed, signed and lodged the grant agreement which was to be sent to the commonwealth Department of Infrastructure, Transport, Regional Development and Communications by the 31 July 2020. No projects have been formally nominated yet however the draft budget has been framed with \$83,014 allocated to painting the exterior of the Town Hall, School Buildings and the Visitor Centre/Museum and the replacement of the Recreation Centre ceiling with the remaining \$238,778 allocated to a project on the Menzies Road funded from this grant.

Project nomination forms are to be completed for each project scheduled setting out what project work category the works fit into and what the primary project goal is before any payment is received from grant funds.

Date of Report: 14/07/2020
Author: David Hadden EHO/Building Surveyor.

Summary

An application has been received from Mr J Pendlebury to place an old transportable accommodation unit on Lot 22 Griffith Street Sandstone.

Attachments

2 x pictures.

Background

Mr Pendlebury is in the process of purchasing Lot 22 Griffith Street Sandstone however has placed the transportable accommodation unit on the property prior to taking ownership of the block. As such Mr Pendlebury has been requested to apply for development approval for the transportable unit followed by a building application for the building if Council issues development approval.

Comment

Lot 22 Griffith Street is zoned as Rural Townsite under Councils Town Planning Scheme No 2 which provides for normal residential use which would incorporate the use of a Class 10 building (shed) in this instance. Mr Pendlebury intends to use the transportable unit as a storage building only, not as a residence. The building being quite old may be best located parallel to the rear of the property which would allow the development of a residence on the front portion of the block in the future.

Draft Detailed Operating and Capital Budgets 2020-2021

Draft Fees and Charges Schedule for 2020-2021

Background

The draft budget for 2020-2021 has been compiled based on the principles contained within the Strategic Community Plan and other supporting plans including the Shire's Corporate Business Plan.

As per resolution 25/20 In April 2020 rates and Fees and Charges have been frozen at last year's rates while a discount of 50% as per resolution 26/20 and 5% as per resolution 27/20 has been allowed for businesses affected by the COVID-19 shutdown of the caravan park and Visitor Centre and mining businesses respectively.

Due to rates being frozen at last year's rate in the dollar the requirement to obtain ministerial approval for differential rates did not apply this year.

Comment

The budget has been prepared to include information required by the *Local Government Act 1995*, the *Local Government (Financial Management) Regulations 1996* and the Australian Accounting Standards.

The Shire's budget includes operating income of \$4,484,710 with capital income of \$1,021,767 which includes \$906,767 in grant funding made up of \$300,000 from the Regional Road Group road project grant, \$284,975 from Roads to Recovery and \$321,792 from the Local Roads and Community Infrastructure grant. A balanced budget is expected. The non-cash depreciation expense is expected to be \$1,451,775.

An overview of the operating and capital income and expenditure follows:

Operating Income/Expenditure

Operating income and expenditure represent the income and expenditure that is incurred on a day to day operational basis. There is \$1,370,185 for flood damage works included in both income and expenditure as all flood damage works are considered maintenance and are expected to be completed this year.

The operating income for 2020-2021 is \$4,484,710. It can be seen from the above chart that the Shire's key sources of operating income include the funds received as part of the Economic Services Program (14% or \$640,216), Transport (34% or \$1,537,314) and funds received as part of the General Purpose Program (48% or \$2,153,713).

The General Purpose Program income includes \$1,069,249 from rates raised and \$1,025,481 from Financial Assistance Grants, which is Commonwealth funding. 50% of Financial Assistance Grants for 2020-2021 were received in advance and were included as income for the 2019-2020 year. This is the same figure as last year as the 2021 federal budget has not been handed down due to COVID-19 and local governments in WA were advised by the Grants Commission to use last years figures.

The Shire's operating expenditure will be \$5,779,797. The key areas of expenditure are the Transport Program (56% or \$3,263,539), Economic Services (19% or \$1,092,133) and the Recreation and Culture Program (12% or \$682,395). The cost of the Governance Program Council support is (4% or \$206,215). It should also be noted that housing is listed as zero this year as housing expenses are now allocated to the area where staff occupying each house are working as an overhead expense ie the truck drivers housing cost is allocated to public works overheads and then allocated out to road works jobs as a part of the cost of those jobs like any other overhead expense.

Capital Income/Expenditure

Capital Income

Capital income totals \$1,021,767 with \$300,000 from Regional Road Group project grant and \$284,975 from Roads to Recovery grant plus \$321,972 from the Local Roads and Community Infrastructure Program. The balance is profit of sale of assets and there are no transfers from reserves this year.

Capital Expenditure

Capital expenditure is expected to be \$2,099,217 including \$1,816,777 for the Transport Program (Road Works), \$222,740 for net Plant Replacement, \$50,000 for the new Heritage Park, \$23,264 for painting the outside of the hall, \$20,726 for painting the outside of the Visitor Centre \$58,188 for the Economic Services Program (Improvements at the Old School Site), and \$6,000 for Community Amenities (new plaques at the Cemetery).

Fees and Charges

Fees and Charges for 2020/2021 are attached for review and are unchanged from 2019-2020.
