Summary

Trust Deed amendments set out in the Deed of Variation are based on legal advice and are intended to assist the Trust's income tax exempt status by strengthening the position that the Trust is a State / Territory Body (STB). Legal advice identified that the Trustee's ability to retire and appoint a new Trustee might affect the Trust's classification as a State or Territory Body (STB). Council is asked to support this amendment.

Attachments

Proposed Amendments

Background

The Local Government House Trust ("The Trust") exists primarily to provide building accommodation for the Western Australian Local Government Association. Since January 2014, the Trust has provided WALGA with accommodation at 170 Railway Parade West Leederville.

The current trust deed commenced in 1993 and was amended in 2002 to reflect the merger of the metropolitan and country associations into WALGA. The current Trust Deed pronounces WALGA as Trustee and unit holders as Beneficiaries, with the Trustee holding property and associated monies "upon Trust" and in proportion to the units provided.

Commencement date of the current deed is 17 February 1993, with a vesting date 79 years from commencement - which means that the Trust ends in 2072.

The Trust is exempt from income tax on the basis of being a State / Territory Body (STB) pursuant to *Division 1AB of the Income Tax Assessment Act 1936*.

Trust Deed Variation

Trust Deed amendments set out in the Deed of Variation are based on legal advice and are intended to assist the Trust's income tax exempt status by strengthening the position that the Trust is a State / Territory Body (STB). Legal advice identified that the Trustee's ability to retire and appoint a new Trustee might affect the Trust's classification as a State or Territory Body (STB). This view, while based upon highly technical grounds, is a risk nonetheless.

Subsequently the Deed of Variation aims to strengthen the position that the Trust is a STB through the following amendments:

1. removing the existing Trustee's power to retire and appoint a new Trustee (Clause 2.1 and 2.2 (22.3) of the Deed of Variation)
2. enabling the beneficiaries to appoint and remove a Trustee (Clause 2.2 (22.4) of the Deed of Variation), and
3. ensuring that the Board of Management is the 'governing body' of the Trust (Clause 2.3 of the Deed of Variation)

Comment

The first two amendments outlined above remove powers granted to the Trustee in the 2002 Deed Variation resulting from the merger to a single Association representing WA Local Governments. These amendments which previously facilitated the transfer of trusteeship to the then new Western Australian Local Government Association are removed, but with the clarification that any appointment must be with the consent of the beneficiaries.

The final amendment intends to confirm that power rests with the Board of Management. As the Board of Management comprises Local Governments, this satisfies the requirements of a STB for tax purposes. This amendment reflects the actual operation of the Trustee in implementing the decisions of the Board of Management whilst retaining sufficient operational discretion to place and renew investments and pay suppliers.

These amendments provide greater power to beneficiaries through the Board of Management, and as such it is anticipated they will be considered acceptable.

Summary

APA Group owners and operators of the Dampier to Bunbury gas pipeline are investigating a proposed pipeline through the Shire of Sandstone to connect to the Goldfields gas pipeline and have asked the shire for any comments they may have on the proposal.

Map of proposed pipeline

Background

APA group have contacted the shire to advise that they are investigating a proposed gas pipeline to run from a proposed compressor station adjacent to the Dampier to Bunbury pipeline through to the Goldfields gas pipeline approximately 40kms south of Leinster. The proposed route of the pipeline spans approximately 580kms and passes through the local government areas of the City of Greater Geraldton and the shires of Yalgoo, Mount Magnet, Sandstone and Leonora.

Comment

APA have applied for approval under sect 7 of the Petroleum Pipelines Act for early access to property along the route for the purposes of conducting preliminary environmental, cultural heritage and geotechnical surveys. Activities as a part of these surveys may be conducted on land managed by the shire.

While the shire has no power to intervene in the process Council is asked if they have any comments or seek further clarification in regard to the project. Individual land managers (pastoralists etc.) will also be contacted as a part of the investigation.

An employee of APA spoke to the CEO and advised that they wished to lease some land for a pipe stack during construction and was advised that a portion of the gymkhana ground might be available. He also advised that they will employ a road maintenance contractor to maintain the Paynes Find and Menzies roads used by trucks and other vehicles carting pipes etc in a good condition during construction of the pipeline.

10.1.4	High Flow Diesel Fuel Bowser
---------------	-------------------------------------

Agenda Reference: CEO 08/20 – 04
Location/Address: Payne Street Sandstone
Name of Applicant: None
Disclosure of Interest: None
Date of Report: 17 August 2020
Author: Harry Hawkins Chief Executive Officer

Summary

Due to drilling contractors buying large quantities of fuel that take considerable time to dispense and this is creating queues at the station the purchase of a fast flow bowser is being revisited.

Attachments

2019 Quote for high flow diesel fuel bowser including installation.

Background

In 2019 there was a request for a high flow diesel fuel bowser to be installed at the town fuel station however that installation never went ahead after flows were improved by the changing of the filter in the current bowser.

The level of exploration around the Sandstone area has increased significantly following the rise in the gold price to record highs and while some drilling contractors are having fuel delivered direct to them others are obtaining fuel from the town supply which is taking time to pump and at times creating long queues at the bowser. The installation of the high flow pump may encourage other truckies and contractors to use the fuel station in the future increasing income for the shire.

Comment

With the approval in the budget of a new OPT system for the fuel station it is considered that this might be the ideal time to include the installation of a high flow diesel pump in those works scheduled for October 2020 after the end of the main tourist season.

The representative for Geraldton company Fuel Fix who have taken over our service station maintenance is currently on leave so at the time of writing this report an updated quote was not available and the 2019 quote is attached as the cost is expected to be similar. Approval of this upgrade to the fuel station is requested now so that all works can be completed together alleviating a second shut down of the station.

It should also be noted when considering the installation of a fast flow pump that the town service station diesel tank only holds 16,000 litres and encouraging use by trucks, drillers and other mining vehicles may necessitate more frequent fuel deliveries resulting in increased costs. The higher volumes of fuel sold may also result in a situation as occurred on the 17th August where the service station tank was so low on diesel fuel that drivers were directed to the depot to purchase their diesel requiring staff help to obtain and pay for fuel.
