 - (b) a purpose for which the land is held or used as determined by the local government; or

- (4) A minimum payment is not to be imposed on more than the prescribed percentage of —
 - (a) the number of separately rated properties in the district; or
 - (b) the number of properties in each category referred to in subsection (6),unless the general minimum does not exceed the prescribed amount.
- (5) If a local government imposes a differential general rate on any land on the basis that the land is vacant land it may, with the approval of the Minister, impose a minimum payment in a manner that does not comply with subsections (2), (3) and (4) for that land.
- (6) For the purposes of this section a minimum payment is to be applied separately, in accordance with the principles set forth in subsections (2), (3) and (4) in respect of each of the following categories —

Risk Implications

The Financial Activity report is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer has implemented internal control measures such as regular Council and management reporting and a quarterly process to monitor financial performance against budget estimates. Materiality reporting thresholds have been established at half the adopted Council levels, which equate to \$10,000 for operating budget line items and \$10,000 for capital items, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud. The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the Local Government (Financial Management Regulations) 1996 regulation 5, seek to mitigate the possibility of this occurring. These controls are set in place to provide daily, weekly, and monthly checks to ensure that the integrity of the data provided is reasonably assured.

Statutory 2021/2022 Budget
Draft Detailed Operating and Capital Budgets 2021-2022
Draft Fees and Charges Schedule for 2021-2022

Background

The draft budget for 2021-2022 has been compiled based on the principles contained within the Strategic Community Plan and other supporting plans including the Shire's Corporate Business Plan.

Comment

The budget has been prepared to include information required by the *Local Government Act 1995*, the *Local Government (Financial Management) Regulations 1996* and the Australian Accounting Standards.

The Shire's budget includes operating income of \$3,152,487 with capital income of \$1,331,837 which includes \$831,837 in grant funding made up of \$300,000 from the Regional Road Group road project grant, \$285,000 from Roads to Recovery and \$246,837 from the Local Roads and Community Infrastructure grant. A balanced budget is expected. The non-cash depreciation expense is expected to be \$2,306,368.

An overview of the operating and capital income and expenditure follows:

Operating Income/Expenditure

Operating income and expenditure represent the income and expenditure that is incurred on a day to day operational basis.

The operating income for 2021-2022 is \$3,152,487. It can be seen from the above chart that the Shire’s key sources of operating income include the funds received as part of the Economic Services Program (20% or \$629,500), and funds received as part of the General Purpose Program (68% or \$2,134,352).

The General Purpose Program income includes \$1,156,547 from rates raised and \$950,305 from Financial Assistance Grants, which is Commonwealth funding. 50% of Financial Assistance Grants for 2021-2022 were received in advance and were included as income for the 2020-2021 year. This is the same figure as last year as the 2021 federal budget has not yet been handed down and local governments in WA were advised by the Grants Commission to use last years figures.

The Shire’s operating expenditure will be \$5,713,797. The key areas of expenditure are the Transport Program (49% or \$2,776,470), Economic Services (22% or \$1,273,292) and the Recreation and Culture Program (8% or \$502,922). The cost of the Governance Program Council support is (5% or \$287,806).

Capital Income/Expenditure

Capital Income

Capital income totals \$1,331,837 with \$300,000 from Regional Road Group project grant and \$285,000 from Roads to Recovery grant plus \$246,837 from the Local Roads and Community Infrastructure Program. The balance is transfers from reserves.

Capital Expenditure

Capital expenditure is expected to be \$2,241,857 including \$1,238,252 for the Transport Program (Road Works), \$726,443 for Plant Replacement, Reroofing of the Community Centre and the Town Hall, Increased capacity of Town Fuel supply, and plaques at the Youanmi Cemetery make up some of the other capital expenditure.
